

Shirl D. David-Wynn is the Founder and President of We Are Impacting Communities Organization, Inc. (“WAICO”) which was born out of Shirl witnessing family and friends struggle and succumb to the devastating effects of domestic violence and cancer and her fervor to take action. WAICO is dedicated to promoting awareness regarding cancer screening and treatment and domestic violence safety and prevention. WAICO provides resources to assist in building stronger, educated communities and committed to helping to save a life one “click at a time.”

Shirl’s passion for assisting others began at an early age in various capacities; however, she wanted to take on additional responsibilities and a more important role in cancer and domestic violence advocacy. As the Chief Executive and Client Relations Officer with David & Husbands Strategic Office Solutions, Shirl developed WAICO as an online community awareness initiative. This expanded her commitment to giving back to the community, as her personal philanthropic fundraising activities began several years ago when she intertwined business savvy and travel expertise with her internet travel company, SpaResortTravel.com, and donated travel to numerous charitable organizations and community-focused associations. This visionary talent helped to promote fresh ideas for fundraising events and generated resources; which is available today.

Shirl is a graduate of her Township's Citizens Police Academy and continues to take advanced training seminars and certification courses, as well as participating in community policing activities. She served as an emergency responder with the Federal Emergency Management Agency which is directed by the U.S. Department of Homeland Security. Her involvement as a volunteer counselor to victims of domestic violence and mentoring “at risk” youth led to a court appointment as a member of the Review Board for Child Placement Services.

Shirl believes in motivating others towards “acts of love and good works” by fostering volunteerism and challenging others to reach their full potential. She continues to push herself by turning her struggles into success; which is an ultimate example that self determination eliminates failure.

*“I wanted my life to be purposeful and relevant. I founded WAICO from the belief that everyone deserves a chance to reach their full potential. It is my hope that WAICO will play an important role in the lives of others and used as a medium to assist them in reaching their goals. Creating awareness regarding issues that affect our community is not only important for health and wellness; but necessary for future generations. Today’s youth is tomorrow’s leaders. We must nurture their total mind, body and spirit. Educating these rising stars is not only critical to their success, but also vital to the stability of our global economy.” ~ Shirl D. David-Wynn*
